NB : Under the old StaffRegs, the Court of Justice never used grade A8.

EPSO-competitions for old grade A8 were first introduced for the recruitment of EUR+10 nationals.

According to Articles 12 and 13 of Annex XIII, these were recruited at A*5/AD5.

So the Court had to recruit for the first time at a new grade corresponding to an old grade which did not exist previously at the Court, which explains why the difference in salary in this case is so high.
