EPSU's majority confirmed

We would like, first of all, to thank all our colleagues who showed their confidence in us.

- On a turnout of 67 % and with a majority of 53% of the votes cast, the institution's staff gave, once more, a majority of the seats to EPSU (9 out of 13).

- An increased majority of colleagues expressed its support for responsible, competent representation, which practises, without demagogy, solidarity between generations and social cohesion.
- EPSU confirmed its majority in seats, whilst also increasing its majority in percentages:

- 53% of the votes cast ;
 - the 5 elected members who topped the list;
 - 9 elected members in all, 2 of whom are contract staff!
- USL and SJE's joint list lost 14% of the votes compared to the total of the votes of both lists (USL and SJE) in 2008.
 - The two 'Independent' candidates, who, in 2008, were elected on the USL list, held their seats.
 - EPSU candidates polled on average 156 votes more than the candidates of the joint US/SJE list.

Now is not the time for self-satisfaction, so, to action!

- In its conduct of the new Staff Committee, EPSU, strengthened by its experience of the previous mandate, will combine democracy with effectiveness.
- It will implement its programme, by which we set ourselves achievable, not fanciful, objectives.
- A **trade union** like EPSU is much more than an election-campaign-organising machine.
- Its independent role is even more necessary now that the 2012 review of the Staff Regulations approaches.
- The battle, for which we must prepare, with the Member States will be even more difficult for us if you limit your support to voting for us every three years.
- EPSU, henceforth **the only trade union** recognised as **representative** at the Court of Justice, will need your material and tangible support to negotiate, keep you informed and be able to combine negotiation with action.

Please join us now!
