## EPSU CJ becomes a USF-affiliate

The trade union landscape of the European institutions in Luxembourg is undergoing an important overhaul.

**Union Syndicale Fédérale (USF)**, which brings together unions of EU-institutions and agencies and other international organisations located in Europe, held its Congress in Dubrovnik from 1 to 3 May.

The Federal Congress (which is convened once every 4 years) ratified the **affiliation of EPSU-CJ**, henceforth the only organisation in the Court of Justice which is part of the USF family.

Besides that, the USF is in the process of taking root in other European institutions in Luxembourg.

EPSU-CJ was established in 2007 with the will to join the USF-trade-union family, the only EU-staff trade union which is [affiliated](#) :

- at the European level, with the [EPSU](#), which in turn is an affiliate of the [ETUC](#); and
- at the global level, with the [PSI](#).

Thanks to our commitment and perseverance, obstacles, of local origin, were overcome and our situation has finally normalised.

By joining EPSU-CJ, you are strengthening:

- your ability to defend your rights as a staff member or pensioner of the European Union in general and the Court of Justice in particular; and
- the big European and global trade-union family, which defends the rights of all workers.
