Cross-border commuting and environmental policy: season-tickets for cross-border workers!

The particularly high cost of housing in Luxembourg ...

Source: CEPS 2011

... is contributing to increasing the number of colleagues seeking housing beyond the borders of the Grand Duchy.

This further aggravates the problem of home-to-work travel, which is harmful

Travelling:
60% of the
ECJ's EMAS
carbon foot-
print → [here](#)

– both to the quality of life (time added to working time, stress, etc.) →

← and to the environment.

Home-to-work travel is part of your working conditions!

From 1 March 2020, **public transport** on the Luxembourg national network will be free of charge; no more need for an **mPass**!

The Luxembourg State is providing us with a significant benefit.

→ The Institution should also do its fair share! In which way?

Many **cross-border** colleagues will still have to pay for their season-tickets. The institution, which will be released in future from its contribution to the **mPass**, will have **to subsidize them** in a way that has yet to be specified.

EPSU-CJ, for its part, has set an example by making its own modest contribution! see → [Season tickets](#).

- **EPSU-CJ** demands that the institution act in accordance with [its declared environmental policy](#).
- **EPSU-CJ** invites colleagues to vote for [all its 13 candidates](#) in the Cdp elections, thus providing a mandate to the newly elected Cdp to address the issues faced by cross-border commuters and to actively promote this demand.
